Spectrum Resources Announces the Acquisition of Sextant Partners and their Subsidiary Wireless Workforces Partners.

OVERLAND PARK, Kansas, January 5, 2010 – Spectrum Resources announces the acquisition of Sextant Partners and their subsidiary Wireless Workforces Partners. Sextant Partners is a professional consulting firm, with offices in Shawnee, Kansas and Lake Ozark, Missouri specializing in providing “C” level technology and business executive consulting.

Since 2005, Sextant has provided clients experience and a knowledge base to provide the alternatives to make informed, viable and successful business decisions. Sextant and Wireless Workforce’s expertise includes Strategic Planning, Mobility Planning, Disaster Recovery Planning, New Technology Evaluation, Interim Technology Management, and Technology and Project Rescue.

Regarding the acquisition, Sextant Managing Partner, Dave Copas said: “We look forward to offering our clients the expanded breadth, capabilities and depth of Spectrum Resources.” Bob Hasslinger, Sextant Managing Partner added: “Many of our clients have asked us to address their specific project needs. With this acquisition, we will be able to speak to those needs.”

Sextant Partners brings to Spectrum Resources proprietary methodologies including:

- Strategic Planning training
- Operations metrics and tool sets
- Due Diligence assessments methodology
- Wireless Workforce “End-to-End” solution for Workforce Automation -- Wireless Mobility Methodology

“We are pleased to welcome Sextant Partners to the Spectrum family. The future is bright for the expanded services this will bring to our existing and future clients,” said George Waterman, Spectrum Resources Managing Partner.
